Our mission

We enable manufacturing companies to optimise their cleaning processes.

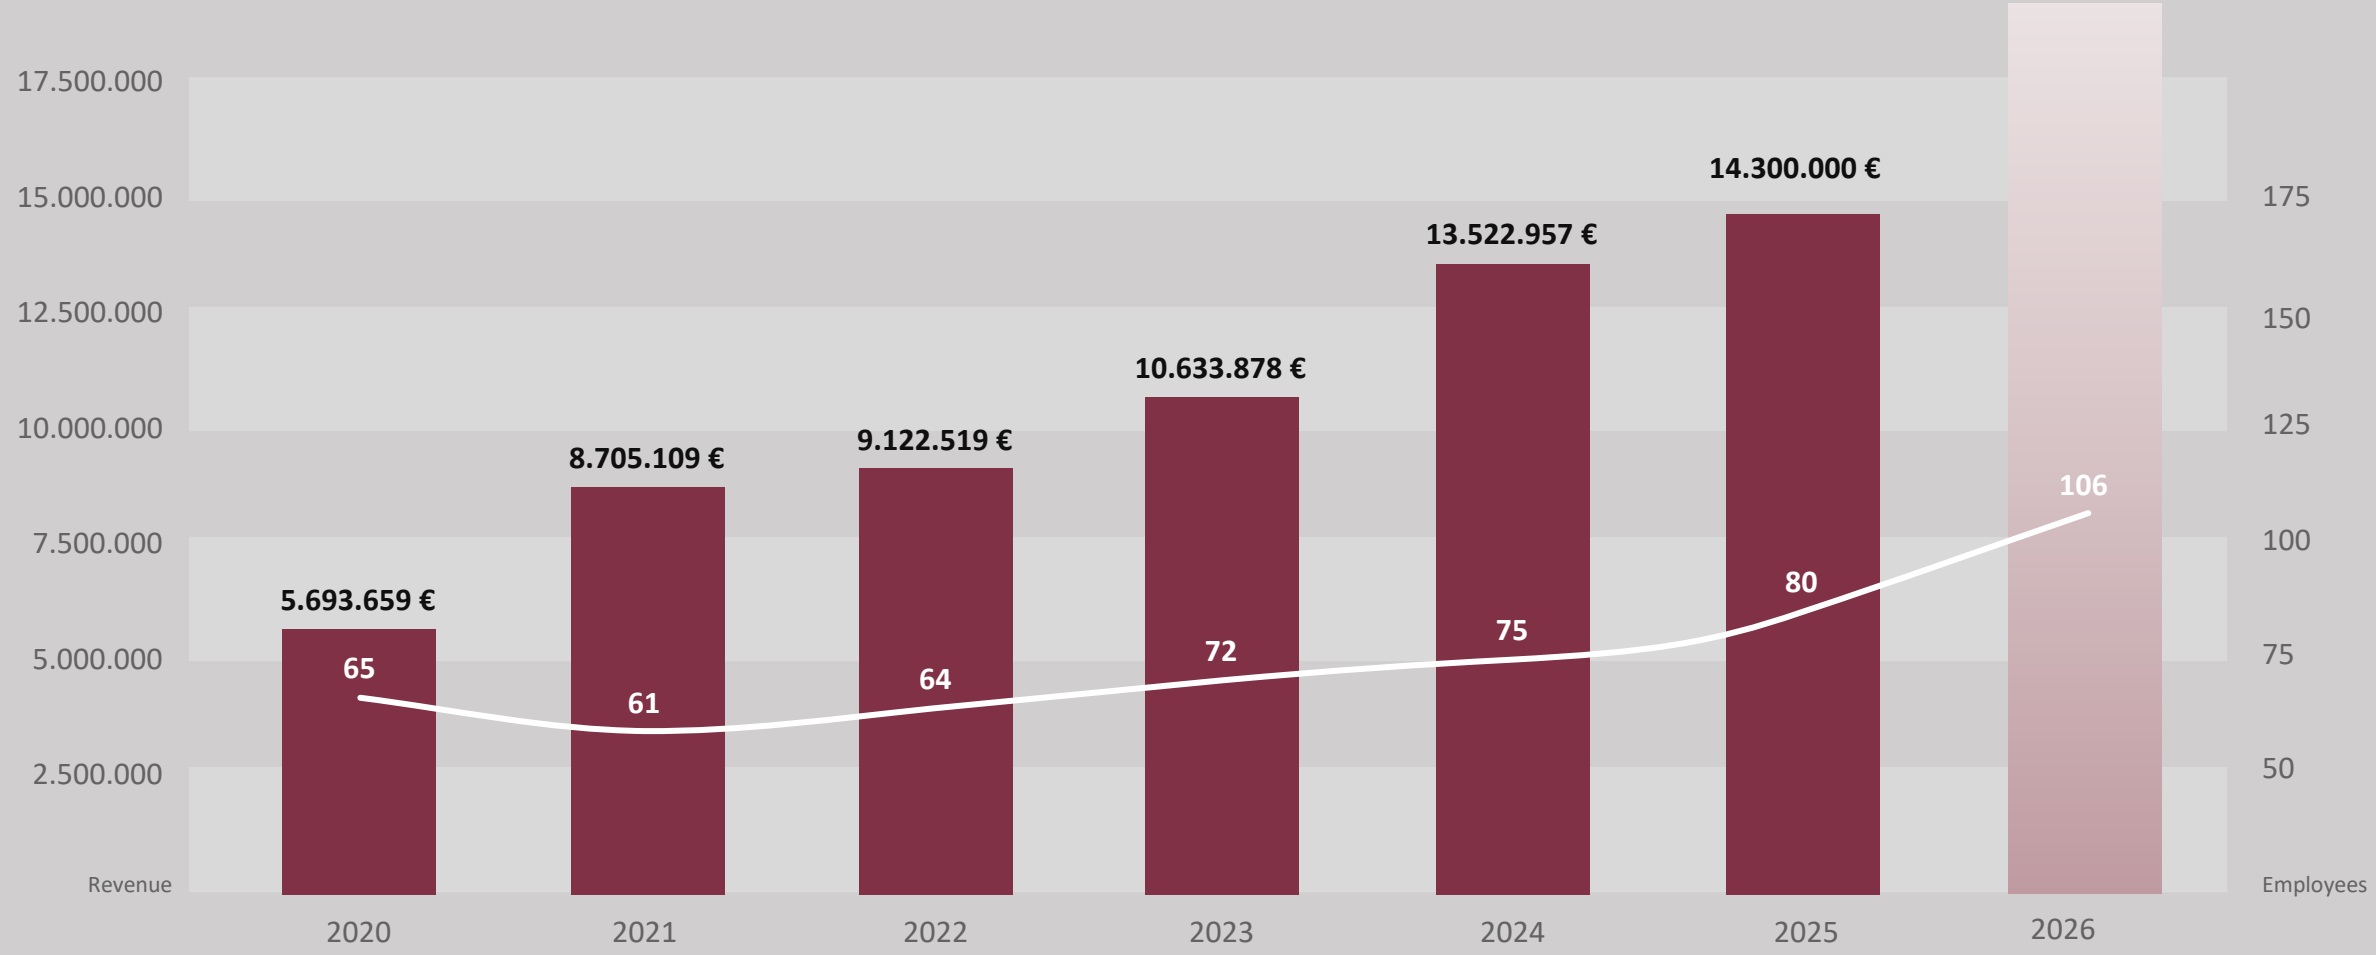

We achieve this by analysing the process chain and subsequently supplying the appropriate equipment, cleaning products and services.

This saves resources and paves the way for the technologies of tomorrow. It improves the quality of life for countless people.

Our vision

vapic is synonymous with parts cleaning.

Revenue and staff growth from 2020 onwards

vapic® INDUSTRIAL PARTS CLEANING

What drives us

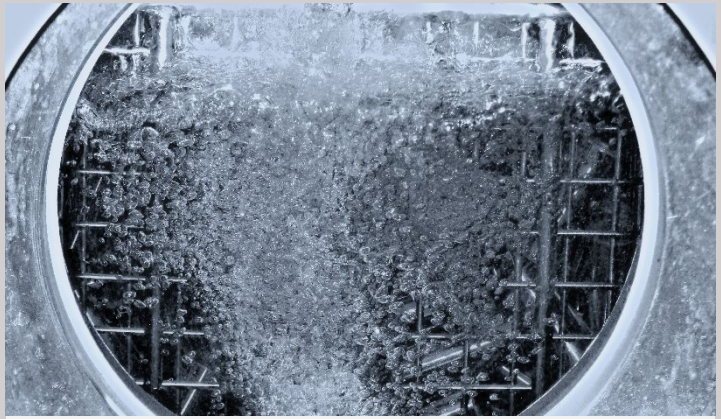

Innovation and collaboration

Range of services

Cleaning plants

- Optimal cleaning, tailored specifically to your parts and requirements
- No structural work required
- Adaptation of the system to your parts, dimensions, carriers and cycle times
- A high degree of automation, tailored to your manufacturing process

Contract cleaning

- A wide range of services thanks to our extensive fleet of machinery
  - Degreasing through to ultra-fine cleaning
  - Batches ranging from 485 x 285 x 190 mm to 1200 x 800 x 800 mm
- Fast turnaround times
- Cleaning of load carriers

Cleaning chemicals

In-house production of cleaning chemicals with over 600 formulations

- Sovents
- Water-based cleaners
- Additives
- Defoamer

vapic® INDUSTRIAL PARTS CLEANING

Range of parts

- Turned parts
- Milled parts
- Formed parts
- Stamped parts
- Injection-moulded parts
- Machine parts
- and many more

vapic® INDUSTRIAL PARTS CLEANING

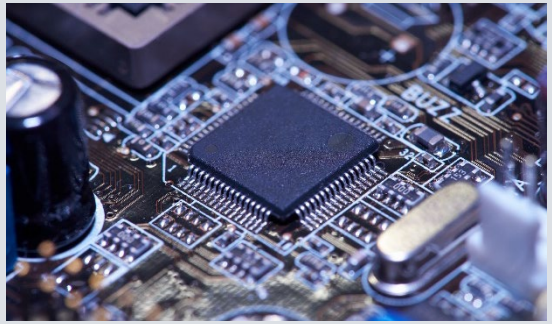

Sectors

- Automotive
- Medical
- Household appliances
- Bathroom fittings
- Electronics
- Maschines & devices
- and many more

Cleaning plants

Tailor-made cleaning solutions

- Optimal cleaning, tailored specifically to your parts and requirements
- No structural work required
- Adaptation of the plant to your parts, dimensions, carriers and cycle times
- A high degree of automation, tailored to your manufacturing process

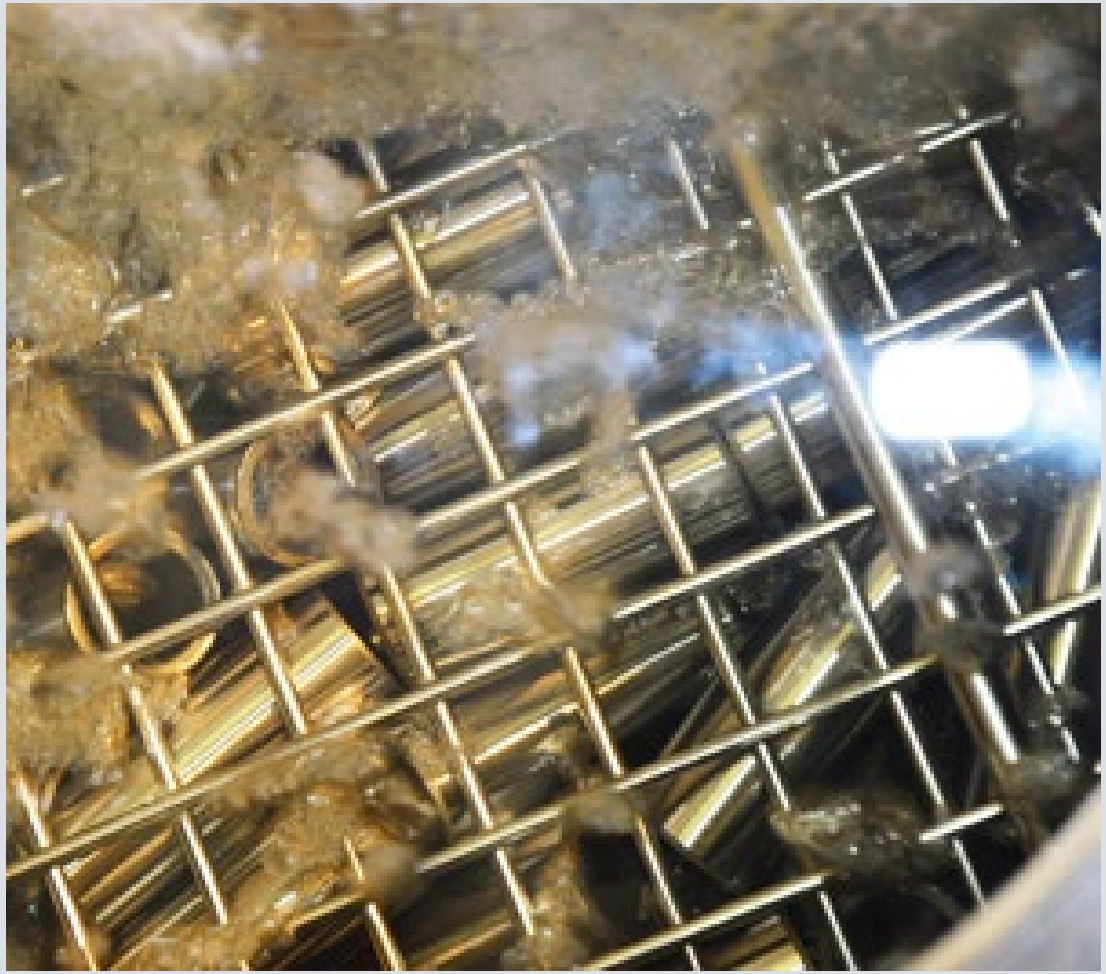

vapic® INDUSTRIAL PARTS CLEANING

Cleaning plants

Unique, innovative cleaning concepts for the highest standards of cleanliness

- Cleaning of complex component geometries using a pressure-swing process
- High level of cleanliness thanks to active superheated steam degreasing
- Highly reliable drying, even for difficult-to-dry parts

vapic® INDUSTRIAL PARTS CLEANING

Cleaning plants

You save money and time thanks to low running costs and high energy efficiency

- Up to 60% lower energy consumption
- Reduced maintenance requirements thanks to the use of high-quality components
- Reducing investment costs by securing government grants

vapic®
INDUSTRIAL PARTS CLEANING

Cleaning plants

We are committed to providing excellent service

- Improved accessibility thanks to well-designed plant construction
- Lower total cost of ownership over the machine's service life thanks to durable construction
- Minimal downtime thanks to effective, global remote maintenance
- Competitive installation rates and spare part prices
- Prompt communication via direct points of contact

Holistic approaches

Automation

Service

Accessories

vapic® INDUSTRIAL PARTS CLEANING

Contract cleaning

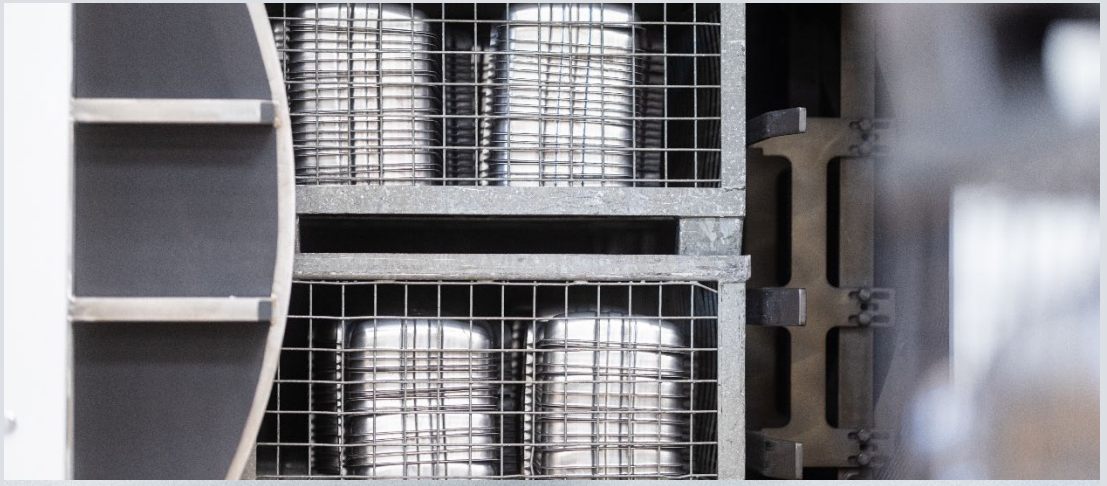

- No need to build up in-house expertise
- Short-lead-time cleaning – from prototypes to large-scale production
- Deferral of investment
- Contingency plan in the event of machine failure

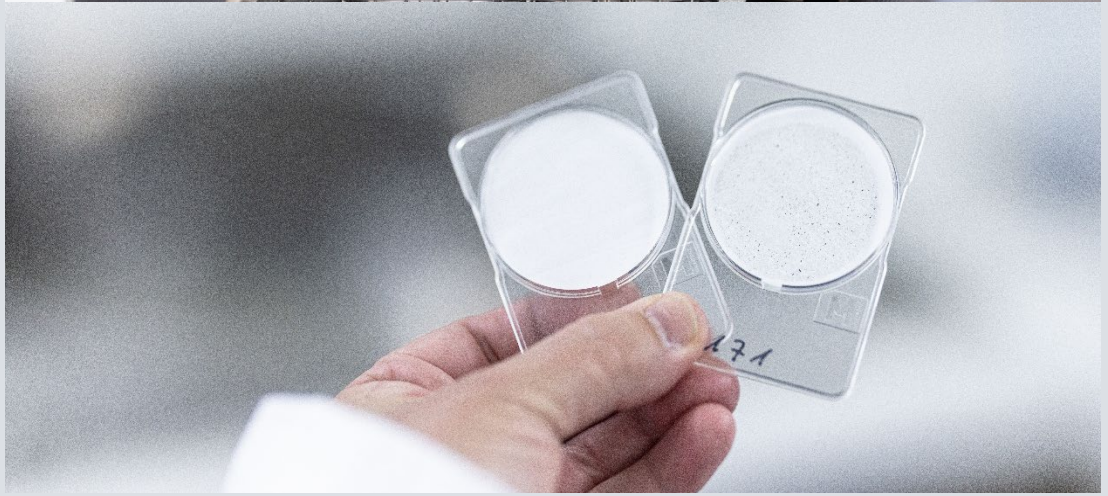

vapic® INDUSTRIAL PARTS CLEANING

Contract cleaning

- A wide range of services thanks to our extensive fleet of cleaning plants
  - From degreasing to ultra-fine cleaning
  - Batch sizes from 485 x 285 x 190 mm to 1200 x 800 x 800 mm
  - Maximum weight of up to 1,000 kg
- A reliable partner
- Fast turnaround times
- Cleaning of load carriers

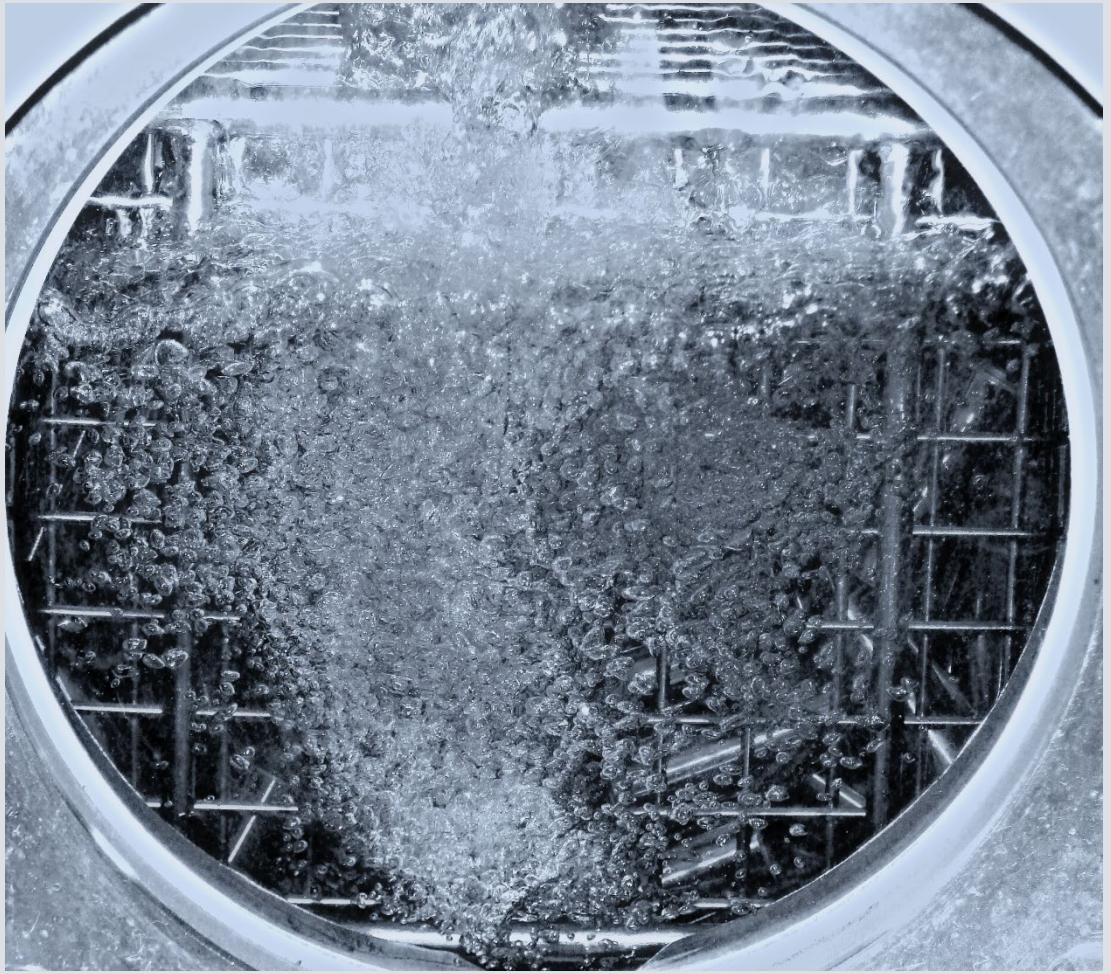

vapic® INDUSTRIAL PARTS CLEANING

Contract cleaning - our options

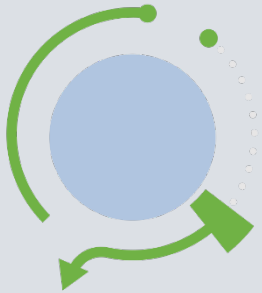

Cleaning agents

- Solvents
  - Hydrocarbon
  - Hydrocarbon containing modified alcohol
  - Perchloroethylene
- Water-based cleaners
  - Acidic
  - Neutral
  - Highly alkaline
